Iman Irajdoost

(938) 866-3896

imanirajdoost@gmail.com

Summary

A motivated computer programmer who won't back down until the job is done and is passionate about learning new things.

Love to go solo into a project and accept the challenges or join a motivated team and help reach the peak together.

Experiences in Game Development using Unity, Mobile Phone Apps (Android and WinPhone), Windows Desktop Apps and Wordpress.

Coding in C#, Java, PHP and C++

Education

Islamic Azad University, Shiraz
Graduated June 2017

Bachelor's Degree - Computer Software

Met a lot of programmers and friends during my education. I graduated as a top student in my university and gained exam-free invitation to continue my study for the Master's degree in IAU, Shiraz.

- Made a Desktop Application for the university that saved the project's or thesis' details of the students (Bachelors or Masters) on the server. Anyone who registered could access the projects but depending on their access level they could either only see the project title and/or author, or they could download the whole project and study it.

Islamic Azad University, Shiraz
Graduating November 2019

Master's Degree - Software Engineering

Currently studying Software Engineering at IAU, Shiraz

Employment History

Freelance Software Developer
November 2015 - Present

Freelancer

+5 Years of experience in programming for different platforms.

As a freelance software developer I worked on a few notable websites, games and applications for mobile and desktop:

- Farm Chaos game for Android (Downloadable on Google Play for Free) - Worked with Game Maker Studio, Google Analytics, AdColony, and many more third party apps. Farm Chaos is an action-2D game made for mobile phones. Link: https://play.google.com/store/apps/details?id=com.digitaldragongames.phoenixgame.chaosinfarm
- Base Converter app for Android (Downloadable on Cafebazaar for Free) - Created with Java language using Android Studio. This app converts bases 2 to 16 to one another and includes a calculator in all

number bases. Link: https://cafebazaar.ir/app/com.imanirt.baseconversion/?l=en
- Remind Me! app for Android (Downloadable on Cafebazaar for Free) - Using this app you can set a reminder to notify and remind you to do something when you reach a certain location. I used Google Maps and Android location services and background services to create this app. Link: https://cafebazaar.ir/app/ir.imanirt.locationreminder/?l=en
- Quick Note app for Android (Downloadable on Cafebazaar for free) - This is a take-a-note app that can lock notes and save them instantly. Link: https://cafebazaar.ir/app/ir.imanirt.quicknote/?l=en
- Local Foods app for Android (Downloadable on Cafebazaar) - An app that has a list of local foods and recipes.
- File Separator app for Windows Desktop - Created with C# using Visual Studio with the help of a friend. This app takes a large file and separates it into any number of smaller pieces that user wants. and then it can put them back together.
- Edited and Managed a Wordpress website for Shiraz University for a Game Festival - URL: http://esl.shirazu.ac.ir/

Phoenix Game Studio   Tehran, Tehran Province
Game Programmer and Deveoper   *June 2017 - Present*

+2 Years of experience in Game development and Game programming.

Working as an indie game developer. Creating games with C# using Unity 2D. Currently working on a project for Windows, Mobile phones and Consoles.
- Created 3 prototype games (Playable, Unpublished)
- Created Phoenix Game Studio website using Wordpress - URL: http://www.phoenix-game-studio.com
- Creating art prototypes using Photoshop
- Consulting other companies and developers about game development and using Unity

Hobbies & Interests

- I Love Video Games. I enjoy them, I learn from them (Gears of War, Assassin's Creed and creative games are the ones I love!)
- I watch movies and/or TV Shows when I get the time (Lord of the Rings and Game of Thrones are an example of my favorites!)
- I like hanging out with my friends, going for long walks or runs. It makes me feel alive!
- Ping pong!
- Pool! (Just 8 ball, no snooker!)
